Creating a visualization with your uploaded dataset

Once you have uploaded your dataset to data.CDC.gov you can create visualizations including, line, bar, pie and maps.

Step-by-step guide

1. On the primer page, scroll down to table preview and click **Create Visualization**
2. Click **+Add Visualization**
3. Click Column to add Dimension Variable
4. Click on the type of visualization
5. Add measure column

ⓘ

Add a map
